

Women of Epping

Posted by Cheryl | 7 months ago

I would like the mural to feature successful women and women who have contributed to the community, with a connection to Epping from the last 200 years. I would like it to include my Great Aunt, Ruby Melville who owned a successful clothing factory on the site of the Coles carpark in the early to mid 1900s. Information on my aunt is available at Living Histories from Newcastle Uni and the Mitchell Library and I can be contacted directly.

Mikey the Powerful Owl in habitat

Posted by The Powerful Owl Guy | 7 months ago

Another for the local apex key indigenous bird species in the area - The Powerful Owl. An endangered species that needs protecting, and needs more recognition in the wider community to facilitate protection

Boronia Blossoms

Posted by Kenneth Yuen | 7 months ago

Main theme should be the Boronia flower because this is Boronia Grove Community Centre next to Boronia Park. Not only is it native to Australia, flowers are visually appealing. Use bright colours such as red, yellow and orange to lift the mood of Boronia Park, which is often shrouded in trees and gloomy feel.

Biodiversity and Culture

Posted by Alex Graham | 7 months ago

A pre-european landscape, featuring Aboriginal art (cave paintings, scar trees and other traditional practices) combined with an endemic flora, fauna, and importantly threatened species). - ideas include Powerful Owl, Gang-gang Cockatoo, yellow-tail black cockatoo, green and golden bell frog, Regent Honeyeater, swift parrot, platypus, Grey-headed Flying-fox acacia pubescens, Darwinian biflora. Perhaps native fish too if the landscape features a creek. Promote awareness about our species which...

Natural world

Posted by George's Widow | 7 months ago

How about no people at all? Epping is not Newtown. Our rates ought not be used to bang any ideological drums. People came to live here to have a backyard, to have parks and trees. Use the mural to extend the natural landscape, with remnant Turpentines and (now hidden due to over development) creeks and streams

Boronia Park

Posted by Mario and Doris | 8 months ago

I think it is a fabulous idea to paint a mural Parramatta Council should also invigorate the main shopping strip of Epping especially around Christmas time there is no feel of Christmas at all around the area please consider!

Time line of Images from Past to Present

Posted by Patricia | 8 months ago

A reference to the past "The Railway Estate" page 22, From Fruit Bowl Farms to Housing Boom, Vol 2. Chris Staples. The image poster of land for sale with numbered lots could possibly be included in the background. Images of past growers and families who lived and worked the land which lead to adjoining streets named after them. Images of fruiting trees or blossoming fruit trees. Including some writtened text, past history of Epping such as the "Fruit Bowl of Sydney" would make it interactive....

Boronia Grove Mural

Posted by Codfish Cathie | 7 months ago

My suggestion would be to have the background of the mural in Australian natural flora and fauna, such as gum trees, flowers, native flora and plants, birds such as white cockatoos, animals such as possums, sugar gliders, interspersed with faces of First Nations people, and European settlers and pioneers from our past, who forged settlement in the area.

Representing past and present

Posted by Hannah | 7 months ago

I think it should be something that pays respect to eppings past and the heritage of the suburb, we have so much new in the suburb but it feels like the heritage and greenery is being overshadowed by new and shiney. I think it would be nice for the community to have a little peice of history back.

Rethink the mural

Posted by Meg | 7 months ago

Why do we need a mural? The park is a lovely quiet oasis, do we need something garish to spoil the natural beauty? Try filling the empty shops if you want to invigorate the centre.

Before this building

Posted by Annie | 7 months ago

A mural of native plants and animals to the area, what it would have looked like before the building Wass built to remind people to care for our beautiful bush

Kids contribution

Posted by Claudia | 7 months ago

I think that having kids come in and paint whatever they want them have the artist turn it into something amazing would be a good idea. This allows the kids to be represented as part of the community and shows friendship and diversity.

Mural Ideas

Posted by Neil Pearce | 7 months ago

Hoping that the artist will consult with the First Nations people of the area and their elders and look to incorporate design ideas that represent the fact that the land of Epping is on aboriginal land. If this is not possible, then something that represents the natural elements of Boronia Park with its large variety of bird life would be appreciated.

East meets West

Posted by Scott | 8 months ago

I have lived in the Epping district on and off for the past 40 years, and I believe that it would be wonderful for Epping to embrace the successful integration of Asian communities and cultures into our suburb.
